Date: Wednesday, January 29, 2014 9:45:15 AM

Michael,

I updated Corozal (in file named January 24 at the G:/ drive as you requested).

I don't have anything on Vieques, but I know Danny and Geoff have been out in the community this week, doing interviews as part of the Community Involvement Plan.

For Culebra, the USACE proposed potential meeting dates for next year to avoid scheduling conflicts with the Vieques project, as most of the Culebra Team members are the same as Vieques. For Seneca, we submitted formal comments to the Army on SEAD-12 (Radiological Burial Pits) Technical Memorandum last Friday. The Army is having a call with Argonne National Laboratories to determine if their response would not require too much time to allow the signing of the ROD by the State deadline of March 31, 2014.

Subject: Weekly Report

Please update the MMN for the weekly report.

I'm especially looking for:

Mel: Can you please provide an update on the NPL sites, Cabo Rojo and Matlack? Thank you!

Jessica: Please provide an update on the Earle public meeting.

Bob: Please provide an update on the status of the RODs for this FY (Plattsburgh OU6 and OU7 and Griffiss).

Bill: Please provide an update on the Picatinny RODs.

Any questions, please let me know. Thanks!!
